

# Village of Radisson Newsletter

Issue: February, 2021

## NOTICE

As a precautionary measure to protect the health and safety of the community in regard to the Coronavirus (Covid-19), the Village of Radisson Office/Village Hall continues to be available for public access on a limited basis and masks are required. For alternate methods to correspond with Village officials (see Village Quick Facts on reverse side) or use the drop box at the Village Hall.

### From Andrew Carli, Village President

- By the time this letter reaches everyone, 2020 will be behind and, with the vaccine in sight, most of us will be able to breathe a sigh of relief.
- Well #3 and well #4 are connected and in turn connected to the new water tower. The old water tower has been removed and final close out documents for all these projects are now being completed.
- Going forward, the Village has made application for an emergency shelter/community center. Awards from FEMA should be announced sometime between April and May of this year.
- With the new wells and water tower in place, the Village is also looking into a grant from the USDA to make necessary improvements to the water distribution system, including adding necessary hydrants, valves and main to convert dead ends into loops which would greatly increase system efficiency.
- A special thank you to Shelly Wortman and her crew for the Christmas decorations and Amy Bullerwell and all of Santa's helpers for the special children's party.
- Finally, with the tower project completed, we are looking forward to creating some new landscaping around the pavilion, developing a flea/farmers market at the pavilion as well as working on developing a user-friendly website for sharing Village news and events. If you have any ideas for any of these activities, get in touch with a board member or come to a regular board meeting.
- Finally, a belated Merry Christmas and a Happy New Year to all.

### From Amy Bullerwell, Trustee

Be sure and mark your calendar! The Radisson Easter Egg Hunt will be held Saturday, April 3, 2021 starting at 11am at the Radisson ATV Park. A fun time for all!

### Calling all gardeners

With the water tower construction area cleared up (hard to see with all the snow), the Village has the opportunity for some creative landscaping around the pavilion and tower area!

We can certainly use any ideas from you. The Village would also appreciate any contributions of spare perennials/ plants you may have this spring as you clean/thin out your own flower gardens and yards. Just contact Shelly.

# Village of Radisson Newsletter

Issue: February, 2021, Pg 2

## From Gwen Genari, Village Clerk

A reminder to all residents and businesses:

Ordinance 7.06 – Cleaning of Snow and ice from Sidewalks, requires property owners to remove snow and ice from their section of the public sidewalk within 24 hours of the snow event.

## Calling all photographers

Just want you to get your thinking cap(s) on. No action needed right now (we don't have the specs yet – **so don't send anything in!**)

Do you have some high-resolution photographs of the Village, its history, events, etc. that you would be willing to donate for the Village's new website? If so, leave a note, including your name and contact information in the Village dropbox (addressed Village Website Photos).

As soon as we know the specs, photo release requirements, etc., you will be contacted and, if you are still interested, we can work on the details at that time. Again, **DO NOT SEND ANY PHOTOS IN NOW**. Just wanted to give you some time to think about it!

## Village Quick Facts

**Village Hall:** PO Box 127, 10598W Railroad St.  
715.945.2020 (leave a message)  
radisson@bevcomm.net
